DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

2. Claims 38 and 39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 36 the phrase "The SC paper according to claim 36," lacks of antecedent basis, since claim 36 is not drawn to a SC paper.

In claim 39 the phrase "The SC-B paper" lacks of antecedent basis.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 37-40 and 47 are rejected under 35 USC 103(a). This rejection is set forth in the prior Office action mailed on May 13, 2003.

Response to Arguments

5. Applicant's arguments filed on April 15, 2004 have been fully considered but they are not persuasive.

Regarding claim 47, applicants define a wood containing pulp as one with at least 10% of lignin on it. Yet claim 47 still has the limitation in which the lignin content is at least 5%.

As explained in previous actions, still reads on the pulp disclosed by the reference.

As to claims 37-40, the examiner contends that the pulp taught by the reference can/could be used in Super Calender papers, SC papers, or as newsprint. Note that the type of pulp used to make those papers is not claimed and that it is well known in the art the mixture of wood-free and wood-containing pulps in the making of those claimed papers. One of ordinary skill in the art would have reasonable expectation of success if the pulp taught by Gil were used, at least in a minor proportion with respect to the total amount of pulp.

6. Claims 24-36, 41-42 and 46 are allowed.

7. The following is a statement of reasons for the indication of allowable subject matter: the cited reference does not teach nor suggested the use of a colloidal PCC in a pulp having at least 10% of a lignin containing pulp, as claimed.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1731

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
